

ABDUL RAFAY KHAN

SOFTWARE ENGINEER

+92 3089555127 | ar8500430@gmail.com | Lahore, Pakistan | github.com/RafayKhan

PROFILE SUMMARY

Computer Science student with strong fundamentals in object-oriented programming, data structures, and software engineering principles, gained through hands-on Android, web, and backend projects. Comfortable working across the stack in Java, C#, and JavaScript, with practical experience in MVC and 3-layer architecture, RESTful APIs, and database integration. Collaborative and communicative team player with a relentless curiosity for new technologies and frameworks, looking to build a rock-solid foundation as an Associate Software Engineer.

SKILLS

Programming Languages: Java, C++, C#, JavaScript, PHP

Core Fundamentals: Object-Oriented Programming, Data Structures, MVC & 3-Layer Architecture, RESTful API Design

Web Development: HTML5, CSS3, JavaScript, Bootstrap, Next.js, ASP.NET Core MVC

Mobile Development: Android (Java), Android Studio, Android SDK, XML Layouts, Firebase (Realtime DB, Auth)

Database: MySQL, Firebase Realtime Database, SQLite

Tools & IDEs: Android Studio, VS Code, IntelliJ IDEA, CLion, GitHub

Currently Learning: Flutter, Dart, Cross-Platform Development

ACADEMIC PROJECTS

Task Manager – .NET Core MVC Web App

Web-based task management system built with ASP.NET Core MVC using 3-layer architecture (Presentation, Business Logic, Data Access) to enforce clean separation of concerns. Designed RESTful API endpoints and a MySQL database for full CRUD operations.

AV Messenger – Real-Time Chat App

Real-time messaging application built in Java on Android Studio, applying OOP design to structure chat, user, and session models. Used Firebase Realtime Database for instant message syncing and Firebase Authentication for secure login and registration.

ShopEase – E-Commerce Android App

Android shopping app with product listings, cart management, and order placement, built in Java with a Firebase backend and role-based access control for users and admins, following clean, modular MVC-style code organization.

QuizMaster – Android Quiz App

Interactive quiz app in Java featuring multiple categories, score tracking, and a timer-based challenge mode. Applied data structures for question/category management and used SQLite for local data persistence.

Portfolio Website

Personal, fully responsive portfolio site built with HTML5, CSS3, JavaScript, and Bootstrap to showcase projects, skills, and contact information.

EDUCATION

BS Computer Science 2023 – 2027

National University of Modern Languages (NUML)

ICS Physics 2021 – 2022

Punjab Group of Colleges

Matriculation 2019 – 2020

M.N Education Campus School

ADDITIONAL INFORMATION

Languages: English (Proficient), Urdu (Native), French (Basic)

Interests: Software Engineering Fundamentals, Mobile App Development, Open-Source Contribution, UI/UX Design
